

YOU CAN NOW ORDER YOUR REPEAT PRESCRIPTIONS ONLINE!

**We've made it
simple to order
your repeat
prescriptions**

HotDoc Repeats is a service that offers you the option to request repeat prescriptions for your regular medications

We have activated a new feature on Hot Doc so that you can request a REPEAT prescription online.

This is a convenient way of requesting scripts/referrals without needing an appointment with your regular doctor.

All requests are sent directly to the doctor electronically, and they need to approve/reject the request on clinical grounds.

You can request through your HotDoc app or no app needed, just search "Margaret River Surgery HotDoc" then select the "Repeat Prescription" button.

THANK YOU
